

# **SHIELD<sup>®</sup>**

## **(Sterile Surgeons Half gown)**

### **TECHNICAL SPECIFICATION**

This kit is made up of Non Woven, Hydrophobic Polypropylene Spun Lace/ SMS fabrics as the main raw material. This material is preferred for its lightweight whose gravity is only 0.91, which is lighter than that of 100% Hydrophobic PP fibers. It has excellent water repellency and air permeability resulting in comfort & 100% dryness. Thus, provides resistance to Bacteria, Microbes, Fungi etc

Double medical grade packaging, ETO sterilized, monitored, using protocol specified for surgical disposables, Lot & individual controls to ensure 100% sterility. (see color change of ETO indicator in individual pack)
